Our Time Building Phase in the Cessna 172K costs around \$28,164.60.

10 Hours of "Complex" or "Technically Advanced Airplane" (TAA) time is required per FAA Regulations. This estimate includes 10 hours in a Cessna 172S G1000 (TAA) to meet this FAA requirement.

This rating assumes a total of 84 hours of total time has been completed. If more total time has been completed, that additional time can be subtracted from this phase.

This cost estimate assumes the minimum flight hours required by FAA Regulation.

The cost of fuel is subject to change at any time and will match our provider's retail fuel cost.
